JURY SELECTED FOR HALL CASE

BELFAST STRIKERS RIOTING

(By Associated Press)
London, Jan. 28.—There are 200,000 people involved in the strike at Belfast and 25 trades are affected, writes the Belfast correspondent of the Mail. "The strike is the most serious ever experienced in this city of strikes," the correspondent writes. "Belfast is like a city of the dead. Its entire social life is paralyzed. Theatres and saloons are closed. Train cars are not running. Galleries and families are closed and there were no afternoon papers on Monday." Telegraph and telephone communication with outside districts is seriously handicapped. After sunset Belfast becomes a city of candles. Restaurants are closed and evening services cannot be held at the churches. Railway stations are lighted with naphtha lamps but in their homes the people depend upon candle. Should the candle supply fall there

will be a plague of darkness. The main cause of the trouble lies in the fact that the workers in electric and gas plants have joined the shipyard workers in demanding a 40 hour week. Things are in such a state that a change must come soon. Grave dangers threaten the strike on Monday.

Belfast, Jan. 28.—Strikers attacked shops here last night seeming to center their assaults on stores showing lights. One large store which generates its own electricity and was brilliantly illuminated, was stoned. Plate glass show windows were smashed and women's clothes were carried away. In another district a saloon was broken open and liquor was taken by members of a mob. Police engaged in dispersing the rioters were fired upon but at last succeeded in restoring order.

KITTERY WATER SYSTEM TO BE ENLARGED

Navy Department Has Loaned Kittery Water District \$150,000.

The Bureau of Yards and Docks, through the recommendation of Secretary Daniels, on a request of the local yard officials, has loaned the Kittery Water District \$150,000. The loan is made in order to improve the yard supply of water which has been low. It has been well known that parts of the town of Kittery and Biddeford have been without water. The Kittery Water District is to put in \$50,000 in each and a larger main is to be laid. There has not been sufficient pressure to handle the fire service for some time.

Saco, Me., Jan. 28.—Quick work was made today in the selection of a jury in the trial of Henry H. Hall, a lay preacher in charge of the Union Baptist Church at Wells Depot, for the murder of his wife, Minnie O. Stevens Hall, who died from injuries when she dropped into a brook from a bridge near the railroad station at Wells Depot. An hour and a half after the court session opened for jurors had been accepted. In obtaining these 28 takersmen were rejected, the greater part of these because they had formed previous opinions. There remained 31 takersmen from which to choose the other jurors. Special interest has been excited in the case because of Hall's position in the community and the fact that it is understood the case of the Government rests largely upon circumstantial evidence. After her drop into the brook Mrs. Hall was removed to her home and a few hours later was taken to a hospital where she died the next day. Hall appeared today to have recovered from his recent slight indis-

position and he followed the empanelling closely. Court adjourned at 12:30 after empanelling the following jury in the order named. The jury will be charged at 2:30.

THE JURY.
Charles Whitney, Limerick.
Charles E. Durrell, Kennebunkport.
Charles D. Ricker, Hollis.
Arthur Longen, Limerick.
Clyde R. Snow, Old Orchard.
Frank J. Garrah, Lebanon.
Walter R. Moody, York.
Nelson A. Blake, Kittery.
Pharaoh Perry, Kennebunk.
William A. Davis, Newfield.
Foreman, Lemuel E. Burbank, Parsonsfield.
Jesse P. Irish, Cornish.
The trial will require 10 days before the 40 witnesses summoned for the state and 50 for the defense have been examined and the case given to the jury and will cost York county \$5,000.

PROVIDENCE HAS MILLION DOLLAR FIRE

Providence, R. I., Jan. 28.—The Key mill at River Point, one of the largest of the B. & N. Knight plants, was destroyed by fire Monday night. The loss is estimated at \$1,000,000.

Fire fighting apparatus was sent from this city and from the surrounding towns, but owing to poor water pressure the stream were able to do little in staying the progress of the flames.

At 11:30 Monday night the mill tower, in which the fire started, fell blazing on the east wing, and in a short time the whole structure was in flames. The mill was filled with textile machinery of the most modern and costly type.

These Durable Soles Cut Shoe Bills Down

"For use around cement plants and similar places where rough materials grind down soles quickly, I recommend Neolin Soles. They resist wear remarkably. After working around the cement department long enough to wear out two pairs of ordinary soles, my Neolin Soles are still as good as new," writes A. F. Miller, superintendent of the Peninsular Portland Cement Company plant in Jackson, Michigan.

It is remarkable how tough and durable Neolin Soles are. They are made by Science—comfortable and waterproof, too. They come on new styles in many styles for men, women, and children, and are available everywhere for resoling. Wear them, and cut your shoe bills down.

Neolin Soles are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear all other heels.

PRICES OF FOODS ARE DROPPING

Prices of butter and eggs and many other things that enter into high cost of living took a tumble yesterday in the market, and Boston dealers hold out hopes that they are going to decline still more during the coming week.

Prices also went off in Chicago. Butter led the way with a drop from 65 to 55 cents. Eggs fell from 59 to 53. Chicago produce men predict even lower prices still and expect to see 40-cent butter and 35-cent eggs by April 1. They also predict lower prices on other lines shortly. The sudden stopping of foreign demand is said to be responsible for the decline.—Newburyport News.

ALL NATIONS IN AGREEMENT OF PEACE TERMS

Paris, Jan. 27.—The Peace Conference today made a decided gain when the nineteen small powers fully agreed to the organization for the conference formulated by the five great powers, thus specifically presenting a united front.

This was largely due to the diplomatic treatment of Jules Cambon French delegate and for some years

ambassador to the United States, who was designated to preside over the small powers meeting which was held at the Foreign Office.

At the same time the Supreme council of the great powers held a meeting. The Council of the great powers held two sessions during which two new commissioners were formed, one to deal with the financial questions and the other the private and maritime laws.

The Council also proceeded to hearings on the disposition of the conquered German colonies in the Pacific and the Far East.

The Labor commission also held a meeting and the military commission on demobilization also were busy.

Boston, Jan. 27.—The movement for an eight hour day of the textile workers has become more general and the textile workers in Fall River, Salem, Blackstone, Falmouth and Hallowell have all made the demand for the eight hour day, joining the movement which started in Lowell, Lawrence and Manchester.

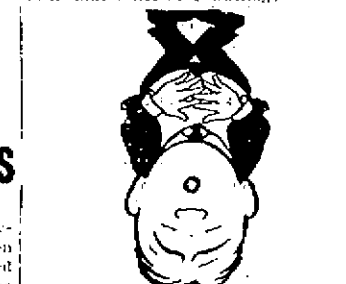

During the week textile workers in other cities are expected to take up the movement until it becomes general. Many of the independent unions and allied unions to the textile industries, such as the Loom fixers and ect, are in accord with the textile council.

President Golden of the Textile Council said that there was no question but what it would mean a 44 hour week. They demand the same pay for the forty-eight hour week as they have been receiving. So far all of the mills who have answered the petition, have refused to grant the eight hour day.

"DOURONCONLI" SCARES TOWN

Alfred, Me., Jan. 27.—Residents of the Raccoon Falls district are alarmed over the appearance of a strange animal which prowls about the woods after dark and makes the nights hideous with its hair-raising screams which are loud and ominous, much like that of a jaguar. In daytime the animal hides beneath the branches of trees and

Unexpected Frankness.

Frankness is admirable, even on the part of profiteers and monopolists, and there were some fine examples of it at a hearing held in Pennsylvania a few days ago by the sub-committee of the United States Senate Committee on Manufactures, which was inquiring into the high price of coal and the alleged shortage in domestic supplies.

In response to questions by counsel for the committee Fred M. Chase, vice president and general manager of the Lehigh Valley Coal Company and another company, said the producers were opposed to accumulating a surplus of coal, "as a matter of business protection." This was a frank admission that the supply is restricted to an extent which enables the operators to charge exorbitant prices for their output. The public has long believed this to be the practice, though few were prepared for such open admission of the fact, especially in the presence of an investigating body.

Another operator who had something to say was E. H. Learning, general manager of three independent collieries, who said the price is not high enough and that producers must get more for their coal or some of them will have to go out of business. He maintained that the mines he manages are operating at a loss. In answer to questions he said he could see no prospect of a reduction in the price of coal, and that the operators are hoping and expecting even higher prices.

This is blunt talk, but it is better that the truth should be known. This is that the coal producers guard carefully against the accumulation of a surplus in order that they can regulate prices as they please, and there is no doubt that they have been doing this for years.

And now the question is whether they are to be permitted to continue the practice. The war is over and the country is looking for the return of business to a normal basis, but if the coal barons are allowed to keep their hands at the throat of the fuel situation relief in one important particular will not be forthcoming.

There ought to be some remedy for this condition. Not only is the price of coal much higher than it ought to be, but the quality is as far below par as the price is above. In other words, the country is in the grip of the coal operators, the two horns of the dilemma being to "settle" or freeze to death.

There are many who are opposed to government ownership on general principles, yet who would be glad to see the government take possession of the mines and operate them for the benefit of the people, if there is no other way of insuring to consumers coal at reasonable prices and of decent quality.

The regulating hand should, without unnecessary delay, be laid kindly, but firmly, upon the men who stand between the people and the fuel supply, and should be kept there until one of the most heartless monopolies in the world is brought to terms.

Major L. S. Tillotson of Vermont, who left the office of State Adjutant in the Legislature to enter the service, returned after serving a year and was a candidate for re-election, but was defeated by another man. Apparently the Vermont Legislature did not feel under obligations to hold any man's place for him. But at a distance it looks like a cold welcome home for a good soldier.

The Dover poultry show was helped to some extent by the action of the health board in lifting the ban on public assemblies, giving the public a chance to see the exhibit, which was highly creditable. All friends of the Association will hope it may have better luck next year.

Only a short time ago the country was shouting about the "shortage of labor," which was given as one of the reasons for high prices, and now all are exhorted to aid in securing work for those that need it. And yet prices are not tumbling as fast as they might.

Warm was the welcome accorded to Major General Edwards in New Hampshire, some of whose sons served under him in France. He is a popular soldier and has well earned the laurels that have come to him.

There seems to be a certain degree of progressiveness among the Germans. They have elected 38 women to the National Assembly. But there is nothing to indicate that they are ready for prohibition.

It is said the United States will propose the abolishment of the submarine. But why bother with details when the mission of the Peace Conference is to abolish war?

It is easy to believe a war correspondent who has been traveling through Germany of late when he says: "It is a wholly impertinent but a thoroughly whipped Germany that I found."

FAMINE RELIEF BILL IS NEARLY COMPLETED

(By Associated Press)

Washington, Jan. 28.—Enactment of the bill appropriating \$100,000,000 for famine relief in Europe and the near east was nearly completed today by the House adopting without objection the conference report, accepting the Senate amendment substantially unchanged.

SAY NEAR BEER BAN IS LIFTED

Washington, Jan. 28.—The Food Administration announced today that President Wilson signed a proclamation in Paris on January 23rd removing restrictions on the manufacture of so-called near beer.

It was stated however that the proclamation could not become effective until the seal of the United States was attached thereto by the State Department and the administration warned the public that no one can safely act on this information until the proclamation had become effective. No reference was made to the restriction on the manufacture of beer and other intoxicating beverages. The presidential proclamation on brewing of beer, near beer and other malt beverages was placed Dec. 1st as a war conservation measure.

Call For A New Amendment.
 (From the Springfield Republican)
 Since the President appealed to the people on July 26 to stop lynchings, twenty-one negroes have been lynched—and perhaps some white men. Appeals of that sort have no permanent effect, evidently. Let us have a new Constitutional amendment providing that the Federal Government shall have concurrent jurisdiction with the States over these crimes of the mob against law and authority. The new prohibition amendment grants to the Federal Government concurrent jurisdiction with the States to enforce prohibition. Only the teeth of the Federal Government, it seems, can ever destroy the jurisdiction of the mob.

Not Too Many Majors, Please
 (From the Buffalo Express)
 The late Private John Allen made the claim that he was the only man without a title in the Confederate Army. Judge by the number of colonels and majors lined up daily at Pennsylvania avenue bars in Washington, until the war's deadly phase intervened, he had ample basis for his assumption. Now we may have no end of titled elites of the world war if a bill in Congress which makes brevet majors of members of draft exemption boards goes through. We already have a vast army of majors whose spurs, Uncle Joe Cunniff says, were or

are used only to keep their feet from sliding off their office desks. Why not phycnole the major bill till the boys get home and see what they think about it?

MR. M. B. JONES NEW PRESIDENT N. E. TELEPHONE

Mr. M. B. Jones has been elected President of the New England Telephone & Telegraph Company, to succeed Colonel Philip L. Spaulding who resigned to enter the Boston banking firm of Katakubok & Company. Mr. Jones assumes his new duties February 1.

He has been connected with the telephone organization for more than 20 years and, in his first vice president, for more than a year past directed the affairs of the company during Colonel Spaulding's absence on military service. He is a well known alumnus of Dartmouth and has served on the Board of Aldermen of Newton, in which city he has resided for many years. On February 1, 1917, he was made General Counsel and in October of that year, when President Spaulding went abroad for service with the aviation section of the Signal Corps, Mr. Jones was elected vice president and director of the company, a member of the executive committee of its Board of Directors and acting president.

Notwithstanding the unprecedented difficulties of war-time conditions, the response testified not only to the ability of the employees as an organization but also to their confidence in Mr. Jones as a leader and their enthusiastic desire to support him in every possible way.

BILL TO RAISE SALARIES OF CITY OFFICIALS

Representative Harold M. Smith has introduced a bill increasing the mayor's salary to \$1000 per year and the Judge of police court to \$1800. It appears that the amendments to the city charter will be attended to as the powers that be decide, and not through any non-partisan body might suggest.

POLICE BREAK UP MEETING OF SERVICE MEN IN NEW YORK.

New York, Jan. 28.—Police reserve and a naval guard put a prompt end to a meeting of discharged soldiers sailors and marines Monday night at which speakers criticized organized government.

The meeting was held in the Band School of Social Science. Under the auspices of the "Soldiers, Sailors and Marine Protective association," to discuss the question of unemployment Members of the board of aldermen participated in the discussion.

Before the meeting came to its end and a resolution had been adopted which read:

"We demand from the national state and city government decent wages under decent conditions, for every discharged member of the armed force of the United States, and we demand that such jobs shall not be secured by the discharge of working people not employed and dependent upon their employment for a living. And we demand that such jobs shall be secured by the increase of public works, by the shortening of the working day throughout industry, and by such other measures as will not throw others out of work."

JURY SELECTED FOR HALL CASE

(Continued from Page One)

according to estimates made last night by court officials.

The state alleges that Hall choked his wife, who was Minnie O. Stevens, a nurse, when he married her at Harrington about 15 years ago, and threw her into a brook beneath a railroad bridge not far from the Wells Depot station late on the afternoon of June 11 last.

The defense contends that Mrs. Hall became dizzy and fell from the bridge while looking into the water, 20 feet below, causing injuries which resulted in her death at a Biddleford hospital early the next morning.

There was no eye-witness to the alleged attack, and the evidence is entirely circumstantial. The state will rely largely on the medical men, and will have the assistance of Medical Examiner George B. Magrath, of Boston, who has made an analysis of the evidence disclosed at the time of Mrs. Hall's death and two months later when her body was exhumed at Harrington and examined. Dr. Magrath will be called to testify as an expert on the results of his examinations. He had not previously been connected with the case.

Disappointment was caused today when word was received that Dr. Lawrence B. Willard, who attended Mrs. Hall before she died, would not be allowed to come here to testify. He is now in the Medical Reserve corps, stationed in Texas. Dr. Willard accompanied her in the ambulance from Wells to Biddleford.

The state contends that family troubles, due to Hall's alleged love affairs, furnished a motive for taking her life. Mrs. Hall was 33 years of age.

The trial will be held in city hall. The attendance will be limited to the seating capacity of the space reserved for spectators, which will not be over 300 people.

Probably all of the first day will be occupied in selecting a jury from the jury list of 60 names, so that the opening for the state may not be made before Wednesday.

John Connelly After Many Battles About to Embark for Home.

Wood's Private Connelly received a slight wound last September at Dead Man's Hill and was in a hospital for a short time, but felt he was extremely fortunate to get off so easily. BOOZE SEIZURE IN SUPERIOR COURT

Exeter, Jan. 26.—Yesterday morning in superior court, Carl Beetle and Rufus Wood, both of Portsmouth were arraigned before Judge John E. Young in the Rockingham county superior court, being brought in on an information by County Solicitor William H. Shreve of Exeter, charged with transporting 1,535 quarts, or nearly 1,000 worth of liquor, into Portsmouth from Massachusetts, in violation of the laws here.

Beetle the driver of the large furniture moving truck, which was loaded with liquor, pleaded guilty and paid a fine of \$100 and costs, but Wood, the owner of the machine, pleaded not guilty, and furnished bail of \$500 for a trial later.

This did not, however, settle the question of the disposal of the liquor, as Attorney Samuel W. Emery, Jr., of Portsmouth appeared for the defendants, whose names he would not disclose, and this matter will be settled by a hearing in superior court some time this term.

Attorney Emery was given a limited time to present the names of the claimants of the liquor.

In the meantime the liquor is being guarded at the Portsmouth police station by Chief of Police Michael J. Hurley, it being the largest amount brought into New Hampshire since the laws were made into effect last May.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If tongue is coated give "California Syrup of Figs."

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, fretful, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "Fruit Laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

PUZZLE FAN'S DEPARTMENT

The Herald fans are certainly solving the puzzles as fast as they can be presented. Not only are they answering the little riddles but they are sending in many new little problems for the column that are much appreciated by all lovers of the column.

Sent in any odd little tangle and the answer and we will be glad to pass it on to the enterprising people that read this column.

Following are the contributions of the day:

Puzzle Editor: Mr. N. E. H. of 1201 St. has another little conundrum for him when he says he thinks his puzzle No. 10, in Saturday's Herald, will take more than a thirteen year old girl to answer, for I am a thirteen year old Whipple school girl and I can take one hundred dollars (\$100) and buy one hundred (100) head of cows, hens and sheep at his price. Upon studying it, I find I can buy 5 cows for \$20, 1 sheep for \$3, and 91 hens for \$47, making \$100 for the head.

A. E. H., 9 New Castle Ave.

Puzzle Editor:

Here is my answer to N. E. H.'s puzzle No. 10. Take \$100 and buy 100 head of cows, sheep and hens, pay \$20 each for the cows, 25 each for the sheep and 50 each for the hens, being in 100 head with the \$100. How many of each kind 1 get?

91 hens for \$47.00 at 50 per head.

1 sheep for \$3.00 at \$3.00 per head.

5 cows for \$25.00 at \$5.00 per head.

100 head for \$100.00.

L. E. W., Rye.

Puzzle Editor:

No. 1. He walks 1 mile. He rides 1 mile. He actually travels 2 miles.

No. 2. The cork costs 25.

No. 3. 800 hens will lay 42 eggs in 7 days.

No. 4. One is just as near to Boston as the other when they pass.

No. 5. First he takes the goose cross and ties it to a tree; then goes back and gets the fox, takes the goose back with him, and then takes the corn across and then comes back for the goose and takes him across.

No. 6. He neither gains or loses.

No. 7. 5 cows \$20, 1 sheep \$3, 91 hens \$47, making 100 head for \$100.

No. 8. A fourth of twenty will be 5.

No. 9. 100 rats will catch 100 rats in 100 minutes.

No. 10. 20 30 40.

L. W.

Puzzle Editor:

Answer to number 1:

The distance the man walks is one mile.

The distance the man rides is one mile.

Now from the engine to station B is one mile, and from station B to station A is one mile.

Both together are two miles.

The answer therefore is 2 miles.

Boston, Jan. 27.—Adjutant General Stevens has received a telegram from Provost Marshal General Knott H. Crowder at Washington to the effect that the end of work of the selective service department has been reached and that he has agreed that the work of the local draft boards shall be ended by Feb. 15, with their records closed. SOLDIERS MAY GET DISCHARGE FROM PERSHING

Soldiers who have entered the service since April 1, 1917, and who are now members of the forces abroad under command of General Pershing, may obtain discharges upon presentation of proof that there is sickness or other distress in their families of a nature to warrant discharge. Proof may be furnished by the soldier who makes application for discharge, or it may be supplied by a member of his family or by some other interested and responsible person.

These provisions are made known in a letter sent to Army Officers by Adjutant General P. C. Harris. There is also made public in the letter a regulation defining circumstances under which officers and men who entered the service since April 1, 1917, may be discharged in Europe. Covering the case of enlisted men who entered the service prior to April 1, 1917, is a provision that they may be granted furloughs in cases where sickness or other distress necessitates their presence with their families.

With these provisions is a warning that they apply only to exceptional cases and should not result in thousands of applications for discharge when discharge is not warranted by conditions.

EXTRA SESSION LIKELY IN MAY

Washington, Jan. 27.—An extra session of Congress next spring now seems certain in the view of both Democratic and Republican leaders. Managers of both parties said tonight they did not believe it would be possible to pass all pressing legislation before the expiration of this Congress on March 1. Most leaders believe the new session will begin in May.

With but 31 working days of the present session remaining, appropriate bills are to be rushed this week. Only six of the 15 regular supply bills have been passed by the House and none by the Senate. Besides the regular appropriation measures, several special money bills, including the new deficiency measure and the \$750,000,000 request of the railroad administration await action.

Much general legislation also is on the calendars with the railroads, unemployment, naval programs and other questions being pressed for solution.

Washington, Jan. 27.—Virtually complete agreement between the House and Senate conference committees on the war revenue bill has been reached.

EXETER

Exeter, Jan. 28.—Monday morning in superior court the first criminal case of the January term went on trial. It being an action of the state vs. Elgie S. Nudd, George P. McAlpine and Smith Melnick all of Exeter, who were indicted on a charge of the larceny of seven sheep from the pasture of Harry Gold on the night of Oct. 12 last year. It was alleged that they stole them and killed them there, taking the carcasses the total value being \$105.

The three respondents pleaded not guilty and a jury was drawn composed of Stephen W. Larkin of Atkinson, foreman and Horace P. Seymour, George W. Pollard and Henry S. March, Jr., of Portsmouth; J. Winfield Varney of Newmarket; James S. Eaton of Seabrook; Joseph W. C. Abbott of Plaistow; Albert L. Remick of Rye; Abel W. Colburn of Londonderry; John P. Blake of Hampton; Matthew E. Odell of Derry and John W. Tuttle of Northwood.

The counsel for the defendants are James J. Broderick of Manchester.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—
Most Women Can Have

Says Dr. Edwards, a Well-Known
Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men (also Dr. Edwards' Olive Tablets—the successful substitute for constipation) and then just to keep in the pink of condition, 10c and 25c per box. All druggists.

REAR ADM. CHADWICK IS DEAD

Rear Admiral French E. Chadwick, U. S. N., retired, who was chief of staff to Admiral Sampson during the Spanish-American War, died Monday at his winter home in New York. He had been ill for more than a year and about a week ago was removed to New York from his summer home at Newport.

Rear Admiral Chadwick was a native of Mountaintown, W. Va., and was appointed to the Naval Academy in 1861. When the Spanish War broke out he had been risen through the various grades to the rank of captain.

Before the war he had served much at sea, had been an instructor at the Naval Academy, naval attaché at London and member of the courts of inquiry into the loss of the battleship Maine in the harbor of Havana. Secretary Tracy in his annual report in 1889, spoke of Rear Admiral Chadwick as one "whose extraordinary ability and judgment during six years of difficult service in England and on the continent have had a lasting influence upon Naval development in this country."

After the Spanish War Rear Admiral Chadwick came into prominence when he was reappointed by Secretary Long in 1900 for remarks concerning Admiral Schley made during the Schley-Sampson controversy. Rear Admiral Chadwick in his later sea service, was in command of the South Atlantic squadron. He was a writer of ability and after his retirement took considerable part in the discussion of public affairs.

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a
glass of hot water before
breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Those who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, musty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have yellow skin, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside-bathing before breakfast.

DOVER

Dover, Jan. 28.—Hon. E. W. Rollins of the banking house of E. H. Rollins & Son, who resides at Three Rivers in this city, has announced that he proposes to give the city of Dover \$25,000 for the construction of a nurses' home at Wentworth hospital as a memorial to late Gladys A. Rollins, wife of his son Ashton, who died last year.

The home is to be erected on the site of the old Harrison Bailey residence, near the hospital. The proposed home when completed, will accommodate 30 nurses.

One feature of the interior will be the living room which is to be an exact reproduction of the living room which the late Mrs. Rollins enjoyed so much at her home in Three Rivers.

Col. P. H. Dearborn has received a letter from Lieut. Fred N. Beckwith, dated Dec. 25, which states he is enjoying good health and is quartered in the house of the village priest, with other officers of his regiment. He is a member of Battery A, 315th regiment, P. A. 90th division, army of occupation.

Lieutenant Beckwith stated that as the "pop" was out of the war he would be well satisfied to return home; that it was very dull there and Dover would look good to him.

Members of J. M. Buzzell camp, S. O. V. are to observe the birthday anniversary of Lincoln. This meeting will be held Tuesday evening, Feb. 11 at G. A. R. hall. Ezra C. Goodwin will deliver an address on Lincoln. Mrs. Lillian Twombly will read a paper on Washington and Col. Walter W. Scott will speak on the life of Roosevelt.

THE MEN IN CLASS A1

A sound, healthy man is never a back number. A man can be as vigorous and able at seventy as at twenty. Condition, not years, puts you in the discard. A system weakened by overwork and careless living brings old age prematurely. The body functions are impaired and unpleasant symptoms appear. The weak back is greatly the kidneys. Keep them clean and in proper working condition and you will generally find yourself in Class A1. Take GOLD MEDAL HARLEM OIL Capsules periodically and your system will always be in working order. Your appetite will be improved, your nerves supple, your mind active, and your body capable of hard work.

Don't wait until you have been rejected. Commence to be a first-class man now. Go to your druggist at once. Get a trial box of GOLD MEDAL HARLEM OIL Capsules. They are made of the pure, original, imported Harlem Oil—the kind your great-grandfather used. Take one capsule each day. It will keep you young and feeling fine. Money refunded if they do not help you. Remember to ask for the imported GOLD MEDAL Brand. In three sizes, sealed packages.

ELKS BALL A GREAT SUCCESS

Governor Bartlett Present and a Large Crowd on Floor and in the Galleries Splendid Music and a Fine Time

The annual ball of the Portsmouth Lodge of Elks, was held on Monday evening at Freeman's hall and it was the usual big success. In fact to say that it was an Elks ball implies that it was in every way a great success, for they never had a failure. Last evening was no exception to the rule and if anything it was a prettier party than of former years.

Governor John H. Bartlett was the guest of honor with Mayor Albert Hildrop and they were in the receiving line for an informal reception.

The main dance hall was very handsomely decorated, the flags of all nations being used with a profusion of colors, which were worked into harmony with the national colors. The feature of all Elks decorations, the huge service flag of the lodge, with its two gold stars for men who have died in service, was suspended from the center of the hall, as a tribute to the men who were doing their bit.

There was a great crowd present the galleries were packed and there was upwards of 300 couples on the floor, and it was a very dressy affair, the handsome costumes of the ladies, the many military uniforms, with the sombre black of the evening dress of the civilians, made a picture, when blended with the decoration that was very effective.

The Marden orchestra of twelve pieces, with Mrs. Clara Marden director, furnished the music, both for the concert program which was very well rendered and for the dancing which followed. The music was as good as has ever been heard in the hall and the dancers were very insistent in their demands for encores.

The grand march followed an informal reception to the Governor, and it was led by the Governor and Mrs. William Kennedy, followed by Exalted Ruler William Kennedy and Lady and Mayor and Mrs. Hildrop and the officials of the lodge and a long line of marchers.

General dancing then followed until one o'clock this morning and the dancers remained to the very last dance.

At eleven o'clock the Toast was given by Exalted Ruler William Kennedy and this was as usual very impressive. It was followed by the singing of Aud Lang Syne by everybody.

Included in the large number of people were many from the surrounding towns, and many army and navy officers and enlisted men, and a very representative gathering of business and professional men of the city, either on the floor or in the galleries.

The Annex was used as a refreshment hall and there were also other attractions there which attracted a good crowd all of the evening.

The committee of arrangements were the officers of the lodge with B. J. McGraw chairman of the committee. The committee, and officers of the dance:
